SPRINT 1

Issue Type	Key	Name
Task	DCS-6	Work on deliverable 1 presentation
Task	DCS-5	Establish weekly meetings
Task	DCS-4	Establish team roles
Task	DCS-3	Setup development tools (GitHub and Jira)
Task	DCS-2	Create a significant business application

- In sprint 1 we decided on our web application idea.
- We created our schedule, and team working agreement and assigned each team member their roles.
- We also set up our development tools which we used for 8 sprints to create, maintain and update our web application and communication.
